

# Indiana Data Works LLC

Public-sector data modernization, reporting, dashboard, interoperability, and governance support for market research, solicitations, grant-funded work, and prime-led teaming.

<b>Office</b> West Lafayette, Indiana	<b>Email</b> info@indianadataworks.com	<b>Phone</b> (317) 316-5350
--	---	--------------------------------

## Core Competencies

- Data strategy, governance, stewardship models, and roadmaps
- Cloud data platforms, pipelines, quality checks, and modernization planning
- Analytics, dashboards, performance reporting, and grant reporting readiness
- Interoperability planning, systems integration, HL7/FHIR and API support
- Digital service support, accessibility-aware implementation, and handoff documentation
- AI readiness, risk review, data quality, and practical governance guardrails

## Differentiators

- Indiana-rooted public-sector data partner with national remote delivery capability
- Bounded scopes, plain-language artifacts, and documentation that survives handoff
- Comfortable with market research, grant-funded work, solicitations, and prime-led teams
- Senior data strategy, architecture, public health, analytics, and engineering experience

## Representative Work

<b>Reporting and dashboards</b> Metric definitions, dashboard specifications, grant reporting views, quality checks, and operating notes.	<b>Modernization readiness</b> Architecture briefs, migration planning, data pipeline design, governance guardrails, and handoff documentation.	<b>Interoperability support</b> Interface inventories, data-flow maps, HL7/FHIR and API planning, vendor handoff support, and test documentation.
